

April 2009 Solar Power Survey of Palomar Mountain Residents

Number of respondents: 35

Respondents with solar power: 15

Of 15 with solar power:

- only one gives power back to the grid (1-3 Kwatts peak)
- at least 7 are completely self-sustaining homes (e.g. no grid connection whatsoever), awaiting responses from the remaining nine
- 6 generate between 3 and 10 Kwatts
- 3 generate between 1 and 3 Kwatts
- 1 generates less than 1 Kwatt
- 4 Don't Know

COMMENTS:

1. I have a Solar design and installation service as part of my company (Druliner Construction Inc) I've been living with an off-grid system for over 20 years. I design and install both grid-tied and off- grid systems. [Bill Druliner,
